DELIVERY OF GOODS

Back pages

Conditions of sale printed on the reverse of every sheet. Look for the faces alternating front, back, front, back rather than the backs arriving in a block at the end - that order is what makes duplex printing come out right - for each back naming the sheet it belongs to, and for the numbering on the front ignoring the backs entirely: an invoice reading page 1 of 2 has four printed faces, and the reader counts what is written on the front.
